STATE OF HAWAII
NATIONAL POLLUTANT
DISCHARGE
ELIMINATION SYSTEM
(DOCKET NO. NP-02-73)**

Standard Oil Company of California, Western Operations, Inc., P.O. Box 3319, Honolulu, Hawaii 96801, has applied for a Department of Health Permit to discharge pollutants into State waters.

Applicant is a petroleum refiner located at Campbell Industrial Park, Barber's Point, Oahu, processing crude oil into various petroleum products including gasoline, kerosene and related products for the Hawaiian market. The effluent discharged from the refinery consists of a combination of fresh washwater, process water, condensate, boiler blowdown, brine well washwater, cooling tower blowdown and storm water run off. Approximately three million gallons per day is discharged into the Pacific Ocean at Barber's Point through a submerged diffuser located 1200 feet from shore at a depth of 22 feet.

On the basis of preliminary staff review and application of lawful standards and regulations, the Department of Health proposes to issue a permit to discharge subject to certain effluent limitations and special conditions. These proposed determinations are tentative. Due to the likelihood of a great deal of public interest in this discharge and the possibility that information may be presented which will assist the Department in the formulation of final determinations regarding the application, the Director of Health intends to hold a public hearing at the time and place stated below:

Therefore, in accordance with Chapter 342 and Chapter 91, Hawaii Revised Statutes and Public Law 92-500, a public hearing is to be held at 7:30 p.m., on Thursday, March 8, 1973, in the Board Room, 3rd Floor, Kinau Hale (Department of Health Building), 1250 Punchbowl Street, Honolulu, Hawaii 96813.

The application, related documents, proposed effluent limitations and special conditions, fact sheets, comments received and other information is on file and may be inspected and copied at the offices of the Sanitary Engineering Branch, Environmental Health Division, Department of Health, 1250 Punchbowl Street, Honolulu, Hawaii 96813, telephone 548-3077, at any time between 7:45 a.m. and 4:30 p.m., Monday through Friday.

NATIONAL POLLUTANT DISCHARGE
ELIMINATION SYSTEM
(DOCKET NO. NP-01-73)**

Oahu Sugar Company, Limited, P. O. Box "O", Waipahu, Oahu, Hawaii, 96797, has applied for a Department of Health permit to discharge pollutants into State waters.

Applicant is a manufacturer of raw sugar and molasses. This application covers the discharge of excess irrigation water into Walker Bay on the West Loch side of Waipio Peninsula, Pearl Harbor, Oahu, Hawaii. Mill washwater is used for irrigation of cane fields on the Waipio Peninsula.

On the basis of preliminary staff review and application of lawful standards and regulations, the Department of Health proposes to issue a permit to discharge subject to certain effluent limitations and special conditions. These proposed determinations are tentative. Persons wishing to comment upon or object to the proposed determinations are invited to submit same in writing at the public hearing.

Therefore, in accordance with Chapter 342 and Chapter 91, Hawaii Revised Statutes, and Public Law 92-500, a public hearing will be held on Thursday, March 8, 1973 at 7:30 p.m. in the Board Room, Kinau Hale, (Department of Health Building), 1250 Punchbowl Street, Honolulu, Hawaii, 96813.

The application, related documents, proposed effluent limitations and special conditions, fact sheets, comments received and other information are on file and may be inspected and copied at the office of the Sanitary Engineering Branch, Environmental Health Division, Department of Health, 1250 Punchbowl Street, Honolulu, Hawaii, 96813, telephone 548-3077.
